

I respectfully request that you keep K-LOVE signal on the FM translator service and NOT on the LPFM. K-LOVE offers family-friendly programming and supports wholesome values as well as a positive and encouraging message. K-LOVE is a breath of fresh air for families and we do not need to overpower the FM translator service with messages of sexuality, "looking for love" in the wrong place, and broken relationships. Don't we need to show hope to the people of the world? Hope that families can stay together, that children are loved, and that there are values we can all learn to live peaceable and harmonious lives? Please keep a radio station that promotes these values! That's all we listen to and our family would be grieved if it were not available anymore. Thank you, Barbara Scales
